

SYDNEY PRIVATE BUS ROUTES

Index of routes in the Sydney Region Route Number System showing contract number

(including routes with numbers in the Sydney Region Route Number System in the Blue Mountains and Picton areas)

This index lists each route in the Sydney Region Route Number System from 1981 onwards, and the contract region in which route histories are listed. The “Contract Region” column shows:

- for routes since 2004 – the current contract region;
- for former routes that lay *within* current private operator contract regions – the current contract region covering the geographical area where the route previously ran;
- for routes which either have ceased completely or are no longer in private hands *and* which are *outside* current private operator contract regions – “No repl” (no replacement) or “Tfd STA” (transferred to State Transit Authority).

Routes with alphabetical suffixes are not listed below, but their route histories may be found in the same contract region as the route with the same number without a suffix.
