

# SYDNEY BUS ROUTES

Brief histories from 1925 to the present of the routes and operators of private bus services in the metropolitan area of Sydney, NSW, Australia

## Routes & Operators as at 1 January 1960

A work in progress. Corrections and comments welcome – [robkit.henderson@bigpond.com](mailto:robkit.henderson@bigpond.com)

This list shows private bus routes and their operators as at 1 January 1960, when the post-World War II population boom had resulted in Sydney's suburbs expanding to the south, west and north of the CBD and many new private bus routes had started to serve the new suburbs. The growth in private bus routes after 1945 can be judged by those noted as "Commenced post-WWII".

Of note also is the large number of operators – over 120 – many of them small independents with small fleets. Since 1960, the number of operators has dwindled dramatically.

Further details of each route are given in the Route Histories. All private bus routes in this list are numbered in the 1925 route number system.
