Notes about numbers of routes between the City or Manly Wharf & destinations in the Northern Beaches (& selected routes in the Mosman area)

Note A – Routes between the City or Manly Wharf & Northern Beaches destinations run by the Department of Road Transport & Tramways in the 130-150 range had route numbers belonging to the **1925 series** until about 1939. Routes 235 & 236 in the Mosman area were in a similar situation. The same route numbers continued to be displayed thereafter, after adoption of the geographically-based (now) **Sydney Region** route numbers. While these route numbers could be regarded as falling into both categories, they are listed only in the “Sydney Region route numbers” column in this index & elsewhere on this website, to simplify the recording process.

Note B – Routes between the City & Northern Beaches destinations (generally in number range 130-190) have necessarily passed *en route* through the Lower North Shore locations of North Sydney, Neutral Bay Junction, Cremorne Junction, Spit Junction and parts of Mosman, but in the great majority of cases with travelling restrictions preventing most local travel within the Lower North Shore. Such route numbers have therefore not been shown in this list for those locations.
